

E + Selen liquid

Product-No.: 09902

Field of application

Liquid supplement feed to provide cattle and poultry with additional vitamin- and selenium supply for a short period.

Additives per litre

Vitamin E	150,000 mg
Selenium	100 mg

Mode of action

- Special use in stress situations such as vaccination, transport, change of environment or change of feed
- Works as an antioxidant in cell metabolism as protection of liquid membranes
- Reduces vitamin E and selenium deficiency

Recommended dosage

Unless otherwise directed:

Poultry: 0.5 - 1 l per 1000 l drinking water for at least 3 days

Cattles: 10 ml per animal and day, for 5 days

Feeding note:

Due to its higher content of selenium in contradiction finished feed this feed supplement is allowed to use only up to the mentioned quantity with the base feed.

Attend the contingent content of selenium in the daily ration!

Sales unit

Standard size:

1 liter PE-bottle

5 liter PE-canister

Other sizes are available on demand.

General notes

Product safety can only be guaranteed with adequate storage.

Close packaging firmly after use.

Store in a cool, dry place away from light.

Shake well before use.

Administer only diluted in water.

Not for human consumption.
